Auditors' report

To
The Member of
SIS INTERNATIONAL HOLDINGS LIMITED
Marcy Building, 2ND Floor, Purcell Estate,
P O Box 2416, Road Town,
Tortola, British Virgin Islands.

We have audited the attached Balance Sheet of SIS INTERNATIONAL HOLDINGS LIMITED as at 31st March 2019 and also the Profit and Loss Account and the Cash Flow Statement for the year ended on that date annexed thereto. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our Audit.

We conducted our audit in accordance with auditing standards generally accepted. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management and the overall financial statement presentation.

We believe that our audit provides a reasonable basis for our opinion.

We further report that:-

 We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit.

 In our opinion proper books of account have been kept by the Company so far as appears from our examination of those books.

The Balance Sheet, Profit and Loss Account, and Cash Flow Statement, dealt with by this report
are in agreement with the books of account.

4. In our opinion and to the best of our information and according to the explanations given to us the said accounts give the information in the appropriate manner and give a true and fair view in conformity with the accounting principles generally accepted:

a) In the case of Balance Sheet, of the state of affairs of the company as at 31st March, 2019

b) In the case of the Profit and Loss Account, of the profit for the year ended on that date.

c) In the case of the Cash Flow Statement, of the cash flows for the year ended on that date

Schedule - 7: Significant Accounting Policies and Notes to Accounts

1. Company Overview

SIS International Holdings Limited ("the Company") is the holding company for the international operations of Security and Intelligence Services (India) Limited, its 100% Holding Company. The Company was incorporated on July 10, 2008 in British Virgin Islands.

2. Statement of significant accounting policies

a. Basis of preparation

The financial statements have been prepared to comply in all material respects with the Accounting Standards issued by the Institute of Chartered Accountants of India ("ICAI"). The financial statements have been prepared under the historical cost convention on an accrual basis. The accounting policies have been consistently applied by the Company during the period.

b. Use of estimates

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although these estimates are based on management's best knowledge of current events and actions the Company may undertake in future, actual results ultimately may differ from the estimates.

c. Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Interest income is recognised on the time proportionate method when the right to receive income is established and that collection is reasonably certain.

Dividends are recognised as revenue when the right to receive payment is established

d. Fixed assets and Intangible assets

Fixed assets and Intangible assets are stated at cost of acquisition less accumulated depreciation/amortisation and impairment losses, if any. Cost comprises the purchase price and any attributable cost, including freight, duties, levies and direct incidental expenses, of bringing the asset to its working condition for its intended use and also includes cost of modification and improvements to leased assets. Borrowing costs relating to acquisition of fixed assets are also included to the extent they relate to the period till such assets are ready to be put to use.

Advances paid towards the acquisition of fixed assets outstanding at each balance sheet date and the cost of fixed assets not ready for intended use before such date are disclosed under capital work-in-progress.

e. Depreciation

Depreciation on fixed assets provided on a straight line basis to allocate their cost or revalued amounts, net of their residual values over their useful lives, as follows:.

Plant and Machinery - 10-33%

Furniture and Fixtures - 5-25%

Additions are depreciated on a pro-rata basis from the date of installation till the date the assets are sold or disposed.

Leasehold improvements on operating leases are depreciated over the shorter of the period of the lease and their estimated useful lives.

f. Borrowing Costs

Borrowing costs attributable to the acquisition or construction of a qualifying asset are capitalised as a part of the cost of the assets. Other borrowing costs are recognised as an expense in the period in which they are incurred.

Schedule - 7: Significant Accounting Policies and Notes to Accounts

g. Leases

Finance leases, which effectively transfer to the Company substantially all the risks and benefits incidental to ownership of the leased item, are capitalised at the lower of the fair value and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease payments are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are charged directly against income. Lease management fees, legal charges and other initial direct costs are capitalised.

If there is no reasonable certainty that the Company will obtain the ownership by the end of the lease term, capitalised leased assets are depreciated over the shorter of the estimated useful life of the asset and the lease term.

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership over the leased term, are classified as operating leases. Operating lease payments are recognised as an expense in the Profit and Loss account on a straight-line basis over the lease term.

h. Impairment of assets

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital. After impairment, depreciation is provided on the revised carrying amount of the assets over its remaining useful life. A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

i. Investments

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the investments.

j. Income taxes

Tax expense comprises both current and deferred taxes. Current income- tax is measured at the amount expected to be paid to the tax authorities in accordance with the applicable income tax rates for the Company's jurisdiction. Deferred income taxes reflects the impact of current period timing differences between taxable income and accounting income for the period and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets are recognised on carry forward of unabsorbed depreciation and tax losses only if there is virtual certainty that such deferred tax assets can be realised against future taxable profits. Unrecognised deferred tax assets of earlier years are reassessed and recognised to the extent that it has become reasonably certain that future taxable income will be available against which such deferred tax assets can be realised.

k. Provisions

A provision is recognised when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined

Schedule - 7: Significant Accounting Policies and Notes to Accounts

based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

3. Auditors' remuneration

Statutory audit fees	Year ended March 31, 2019	Year ended March 31, 2018
